The second trademark in the series is limited to the colours as shown in the representation on the form of application.

CLASS 7

Electric drive motors for machines; industrial robots; electric power generators; machines, machine tools, power-operated tools; mechanical power transmission mechanisms, other than for land vehicles; electromechanical machines for the paper and pulp industry; machine coupling and transmission components, except for land vehicles, and parts therefor; starter motors; pressure regulators [parts of machines]; hydraulic and pneumatic controls for machines; proportional flow valves as parts of machines; mechanical control mechanisms for industrial robots.

CLASS 9

Electronic control devices for energy management; energy regulators; supercapacitors for energy storage; battery boxes; battery terminals; access control and alarm monitoring systems; automatic access control systems; computer operating system software; data processing systems; robot operating system [ros]; system software and system support software; apparatus for monitoring and recording the performance of machinery; energy meters for tracking and monitoring energy usage; measuring, detecting, monitoring and controlling devices; voltage monitoring units; fire detection systems; fire extinguishing systems; power distribution systems; inverters [electricity]; converters, electric; frequency converters; distribution boards [electricity]; electric power supplies other than generators; electric installations for the remote control of industrial operations; electric switchgears; transformers [electricity]; circuit breakers; pressure measuring apparatus; pressure transmitters; apparatus for controlling temperature; display instruments for monitoring gas or liquid flows.

CLASS 11

Solar energy powered heating apparatus; electric lighting apparatus; level controlling valves in tanks.

CLASS 35

Advertising, marketing and promotional services; collection, systematization, compilation and analysis of business data and information stored in computer databases; compilation and systemization of information used in electronic transmissions; processing, systemization and management of data; retail services in relation to information technology equipment; wholesale services in relation to information technology equipment; retail and wholesale services for electric motors of all kinds; retail and wholesale services for machines, machine tools, power-operated tools, motors and engines, except for land vehicles; retail services or wholesale services for electrical machinery and apparatus; advertising and business advice; advisory services relating to business management and business operations; assistance, advisory services and consultancy with regard to business analysis; business advice and consultancy; business efficiency studies.

CLASS 39

Distribution and storage of electricity; providing information relating to storage.

CLASS 40

Custom manufacturing of propulsion systems for thruster units for others; generation of energy; leasing of energy generating equipment; waste water treatment services for industrial purposes.

CLASS 42

Computer system design and analysis; computer systems integration services; data processing system design; design and development of online computer software systems; design and development of systems for regenerative energy generation; developing of driver and operating system software; development of data transmission systems; development of energy and power management systems; development, updating and maintenance of software and database systems; engineering and technical support services in the design and configuration of hardware and software systems for use in the processing of paper and paper pulp manufacturing systems; engineering services relating to energy supply systems; design of industrial machinery; engineering services in the field of reducing operational costs of industrial machinery; quality control testing services for industrial machinery; advisory services relating to energy efficiency; consultancy in the field of energy-saving; energy auditing; monitoring services relating to energy efficiency performance; technical consultancy in the field of energy saving and energy efficiency; providing non-downloadable computer software for performing numerical computation using data flow graphs.
